(3) In the application of the provisions of the present Convention by one of the Contracting Parties any term not otherwise defined shall, unless the context otherwise requires, have the meaning which it has under the laws in force in the territory of that Party relating to the taxes which are the subject of the present Convention.

Article III

(1) The industrial or commercial profits of a United Kingdom enterprise shall not be subject to Israel tax unless the enterprise carries on a trade or business in Israel through a permanent establishment situated therein. If it carries on a trade or business as aforesaid, tax may be imposed on those profits by Israel, but only on so much of them as is attributable to that permanent establishment.

(2) The industrial or commercial profits of an Israel enterprise shall not be subject to United Kingdom tax unless the enterprise carries on a trade or business in the United Kingdom through a permanent establishment situated therein. If it carries on a trade or business as aforesaid, tax may be imposed on those profits by the United Kingdom, but only on so much of them as is attributable to that permanent establishment.

(3) Where an enterprise of one of the territories carries on a trade or business in the other territory through a permanent establishment situated therein, there shall be attributed to that permanent establishment the industrial or commercial profits which it might be expected to derive in that other territory if it were an independent enterprise engaged in the same or similar activities under the same or similar conditions and dealing at arm's length with the enterprise of which it is a permanent establishment.

(4) In determining the industrial or commercial profits of a permanent establishment, there shall be allowed as deductions all expenses which would be deductible if the permanent establishment were an independent enterprise in so far as they are reasonably allocable to the permanent establishment, including executive and general administration expenses so deductible and allocable, whether incurred in the territory in which the permanent establishment is situated or elsewhere.

(5) No profits shall be attributed to a permanent establishment by reason of the mere purchase by that permanent establishment of goods or merchandise for the enterprise.

Article IV

Where

(a) An enterprise of one of the territories participates directly or indirectly in the management, control or capital of an enterprise of the other territory, or

(b) The same persons participate directly or indirectly in the management, control or capital of an enterprise of one of the territories and an enterprise of the other territory,

and, in either case, conditions are made or imposed between the two enterprises, in their commercial or financial relations, which differ from those which would be made between independent enterprises, then any profits which would, but for those conditions, have accrued to one of the enterprises, but, by reason of those conditions, have not so accrued, may be included in the profits of that enterprise and taxed accordingly.

Article V

Notwithstanding the provisions of Articles III and IV income from the operation of ships or aircraft in international traffic shall be taxable only in the territory in which the place of effective management of the enterprise is situated.

Article VI

(1) Dividends paid by a company which is a resident of one of the territories to a resident of the other territory may be taxed in that other territory.

(2) Dividends paid by a company which is a resident of Israel may be taxed in Israel and according to the law of Israel but if the dividends are subject to tax in the United Kingdom the Israel tax so charged shall not exceed 15 per cent of the gross amount of the dividends. In this paragraph the term "Israel tax" includes any Israel tax chargeable on dividends paid by a company even though those dividends are allowed as a deduction in computing the profits of the company for income tax purposes in Israel.

(3) Dividends paid by a company which is a resident of the United Kingdom to a resident of Israel may be taxed in the United Kingdom and according to the law of the United Kingdom but if the dividends are subject to tax in Israel the United Kingdom tax so charged shall not exceed 15 per cent of the gross amount of the dividends.

(4) The term "dividends" as used in this Article means income from shares, or other rights, not being debt-claims, participating in profits, as well as income from other corporate rights assimilated to income from shares by the taxation law of the territory of which the company making the distribution is a resident and also includes any other item (other than interest or royalties relieved from tax under Article VII or Article VIII of this Convention) which, under the law of the territory of which the company paying the dividend is a resident, is or may be treated as a dividend or distribution of a company.

(5) The provisions of paragraphs (1), (2) and (3) of this Article shall not apply if the recipient of the dividends, being a resident of one of the territories, has in the other territory, of which the company paying the dividends is a resident, a permanent establishment and the holding by virtue of which the dividends are paid is effectively connected with a business carried on through that permanent establishment. In such a case, the provisions of Article III shall apply.

(6) If the recipient of a dividend being a resident of one of the territories owns 10 per cent or more of the class of shares in respect of which the dividend is paid then the relief from tax provided for in paragraphs (2) and (3) of this Article shall not apply to the dividend to the extent that it can have been paid only out of profits which the company paying the dividend earned or other income which it received in a period ending twelve months or more before the relevant date. For the purposes of this paragraph the term "relevant date" means the date on which the recipient of the dividend became the owner of 10 per cent or more of the class of shares in question. Provided that this paragraph shall not apply if the recipient of the dividend shows that the shares were acquired for bona fide commercial reasons and not primarily for the purpose of securing the benefit of this Article.

(7) Where a company which is a resident of one of the territories derives profits or income from sources within the other territory, there shall not be imposed in that other territory any form of taxation on dividends paid by the company to persons not resident in that other territory, or any tax in the nature of undistributed profits tax on

undistributed profits of the company, whether or not those dividends or undistributed profits represent, in whole or in part, profits or incomes so derived.

Article VII

(1) Where interest is derived from sources within one of the territories by a resident of the other territory who is subject to tax in that other territory in respect thereof, the rate of tax imposed thereon in the first-mentioned territory shall not exceed 15 per cent.

(2) The provisions of paragraph (1) of this Article shall not apply where a resident of one of the territories has a permanent establishment in the other territory and such interest is attributable to that permanent establishment; in such event such interest as is attributable to that permanent establishment shall be treated as if it were industrial or commercial profits to which the provisions of Article III are applicable.

(3) In this Article, the term "interest" means income from government securities, from bonds or debentures, whether or not secured by mortgage, or from any other form of indebtedness, as well as all other income assimilated to income from money lent by the taxation law of the territory in which the income arises.

(4) Where, owing to a special relationship between the payer and the recipient or between both of them and some other person, the amount of the interest paid, having regard to the indebtedness in respect of which it is paid, exceeds the amount which would have been agreed upon by the payer and the recipient in the absence of such relationship, the provisions of this Article shall apply only to the last-mentioned amount. In that case, the excess part of the payments shall remain taxable according to the Contracting Parties' own laws, due regard being had to the other provisions of the present Convention.

(5) Any provision of the law of one of the territories which relates only to interest paid to a non-resident company with or without any further requirement, or which relates only to interest payments between inter-connected companies with or without any further requirement, shall not operate so as to require such interest paid to a company which is a resident of the other territory to be left out of account as a deduction in computing the taxable profits of the company paying the interest as being a dividend or distribution. The preceding sentence shall not however apply to interest paid to a company which is a resident of one of the territories in which more than 50 per cent of the voting power is controlled, directly or indirectly, by a person or persons resident in the other territory.

Article VIII

(1) Any royalty derived from sources within one of the territories by a resident of the other territory who is subject to tax in that other territory in respect thereof shall be exempt from tax in that first-mentioned territory: Provided that where any such royalty is in respect of cinematograph or television films tax may be imposed thereon in the territory from which the royalty is derived, but the tax so imposed shall not exceed tax at the rate applicable to companies on 15 per cent of the gross amount of the royalty.

(2) In this Article, the term "royalty" means any royalty or other amount paid as consideration for the use of, or for the privilege of using, any copyright, patent, design, secret process or formula, trademark, or other like property, and includes any rental or like payment in respect of cinematograph or television films, but does not include any royalty or other amount paid in respect of the operation of a mine or quarry or of any other extraction of natural resources.

(3) The provisions of paragraph (1) of this Article shall not apply where a resident of one of the territories has a permanent establishment in the other territory and the royalty is attributable to that permanent establishment; in such event the royalty shall be treated as if it were industrial or commercial profits to which the provisions of Article III are applicable.

(4) Where, owing to a special relationship between the payer and the recipient or between both of them and some other person, the amount of the royalty, having regard to the use, right or property for which it is paid, exceeds the amount which would have been agreed upon by the payer and the recipient in the absence of such relationship, the provisions of the preceding paragraphs of this Article shall apply only to the last-mentioned amount. In that case, the excess part of the payments shall remain taxable according to the Contracting Parties' own laws, due regard being had to the other provisions of the present Convention.

(5) Any capital sum derived from sources within one of the territories from the sale of patent rights by a resident of the other territory, who does not carry on a trade or business in the first-mentioned territory through a permanent establishment situated therein, shall be exempt from tax in that first-mentioned territory.

(6) Any provision of the law of one of the territories which requires royalties paid by a company to be left out of account as a deduction in computing the company's taxable profits as being a dividend or distribution of profit shall not operate in relation to royalties paid to a resident of the other territory. The preceding sentence shall not however apply to royalties derived by a company which is a resident of that other territory where:

(a) the same persons participate directly or indirectly in the management or control of the company paying the royalties and the company deriving the royalties; and

(b) more than 50 per cent of the voting power in the company deriving the royalties is controlled directly or indirectly by a person or persons resident in the territory in which the company paying the royalties is resident.

Article VIII A

(1) Capital gains from the alienation of immovable property, as defined in paragraph (2) of Article IX, or from the alienation of shares not dealt in on a stock exchange being shares in a company of which the assets consist principally of such property, may be taxed in the territory in which such property is situated.

(2) Capital gains from the alienation of movable property forming part of the business property of a permanent establishment which an enterprise of one of the territories has in the other territory or of movable property pertaining to a fixed base available to a resident of one of the territories in the other territory for the purpose of performing professional services, including such gains from the alienation of such a permanent establishment (alone or together with the whole enterprise) or of such a fixed base, may be taxed in the other territory.

(3) Notwithstanding the provisions of paragraph (2) of this Article, capital gains derived by a resident of one of the territories from the alienation of ships and aircraft operated in international traffic and movable property pertaining to the operation of such ships and aircraft shall be taxable only in that territory.

(4) Capital gains from the alienation of any property other than those mentioned in paragraphs (1), (2) and (3) of this Article shall, if subject to tax in the territory of which the alienator is a resident, be taxable only in that territory.

Article IX

(1) Income from immovable property may be taxed in the territory in which such property is situated.

(2) The term "immovable property" shall be defined in accordance with the laws of the territory in which the property in question is situated. The term shall in any case include property accessory to immovable property, livestock and equipment of agricultural and forestry enterprises, rights to which the provisions of general law respecting landed property apply, usufruct of immovable property and rights to variable or fixed payments as consideration for the working of mineral deposits, sources and other natural resources; ships, boats and aircraft shall not be regarded as immovable property.

(3) The provisions of paragraphs (1) and (2) of this Article shall apply to income derived from the direct use or from the letting of immovable property or the use in any other form of such property, including income from agricultural or forestry enterprises. They shall likewise apply to profits from the alienation of immovable property.

(4) The provisions of paragraphs (1) to (3) of this Article shall also apply to the income from immovable property of any enterprises other than agricultural or forestry enterprises and to income from immovable property used for the performance of professional services.

Article X

(1) Remuneration, including pensions, paid by one of the Contracting Parties to any individual in respect of services rendered to that Party in the discharge of governmental functions shall be exempt from tax in the territory of the other Contracting Party, if the individual is not ordinarily resident in that other territory or (where the remuneration is not a pension) is ordinarily resident in that other territory solely for the purpose of rendering those services.

(2) The provisions of this Article shall not apply to payments in respect of services rendered in connexion with any trade or business carried on by either of the Contracting Parties for purposes of profit.

(3) In applying the provisions of paragraph (1) of this Article services rendered to the Government of Israel as one of the Contracting Parties in the discharge of governmental functions shall be deemed to include services so rendered to the Government of Palestine.

(4) The provisions of paragraph (1) of this Article shall apply also to remuneration in respect of services rendered in Israel by the personnel of the Commonwealth War Graves Commission.

Article XI

(1) Any pension (other than a pension of the kind referred to in paragraphs (1) or (3) of Article X) and any annuity, derived from sources within Israel by an individual who is a resident of the United Kingdom and subject to United Kingdom tax in respect thereof, shall be exempt from Israel tax.

(2) Any pension (other than a pension of the kind referred to in paragraph (1) of Article X) and any annuity, derived from sources within the United Kingdom by an individual who is a resident of Israel and subject to Israel tax in respect thereof, shall be exempt from United Kingdom tax.

(3) The term "annuity" means a stated sum payable periodically at stated times, during life or during a specified or ascertainable period of time, under an obligation to make the payments in return for adequate and full consideration in money or money's worth.

Article XII

Income derived by a resident of one of the territories in respect of professional services or other independent activities of a similar character shall be subjected to tax only in that territory unless he has a fixed base regularly available to him in the other territory for the purpose of performing his activities. If he has such a fixed base, such part of that income as is attributable to that base may be taxed in that other territory.

Article XIII

(1) Subject to the provisions of Articles X, XI and XV, salaries, wages and other similar remuneration derived by a resident of one of the territories in respect of an employment shall be subjected to tax only in that territory unless the employment is exercised in the other territory. If the employment is so exercised, such remuneration as is derived therefrom may be taxed in that other territory.

(2) Notwithstanding the provisions of paragraph (1) of this Article, remuneration derived by a resident of one of the territories in respect of an employment exercised in the other territory shall be subjected to tax only in the first-mentioned territory if:

(a) The recipient is present in the other territory for a period or periods not exceeding in the aggregate 183 days in the fiscal year concerned, and

Article XVII

Any income not dealt with in the foregoing provisions derived by a resident of one of the territories who is subject to tax there in respect thereof shall be subjected to tax only in that territory.

Article XVIII

(1) Subject to the provisions of the law of the United Kingdom regarding the allowance as a credit against United Kingdom tax of tax payable in a territory outside the United Kingdom (which shall not affect the general principle hereof):

(a) Subject to sub-paragraph (b) of this paragraph, Israel tax payable under the laws of Israel and in accordance with this Convention, whether directly or by deduction, on profits, income or chargeable gains from sources within Israel shall be allowed as a credit against any United Kingdom tax computed by reference to the same profits, income or chargeable gains by reference to which the Israel tax is computed; in this sub-paragraph the term "Israel tax" includes any Israel tax chargeable on dividends paid by a company even though those dividends are allowed as a deduction in computing the profits of the company for income tax purposes in Israel;

(b) in the case of a dividend paid by a company which is a resident of Israel to a company which is a resident of the United Kingdom and which controls directly or indirectly at least 10 per cent of the voting power in the company paying the dividend, the credit shall take into account (in addition to any Israel tax creditable under the provisions of sub-paragraph (a) of this paragraph) Israel tax payable by the last-mentioned company in respect of the profits out of which such dividend is paid.

(2) For the purposes of paragraph (1) of this Article, the term "Israel tax payable" shall be deemed to include any amount which would have been payable as Israel tax for any year but for an exemption or reduction of tax granted for that year or any part thereof under --

(a) Any of the following provisions, that is to say:

(i) Section 11 of the Encouragement of Capital Investments Law, 5710-1950, as amended; or

(ii) Section 23, 46, 47, 47A or 50 of the Encouragement of Capital Investments Law, 5719-1959, as amended;

(b) Any other provision which may subsequently be made granting an exemption which is agreed by the taxation authorities of the Contracting Parties to be of a substantially similar character, if it has not been modified thereafter or has been modified only in minor respects so as not to affect its general character.

Provided that, where the exemption is an exemption granted under Section 47A of the Encouragement of Capital Investments Law 5719-1959 in respect of income from shares or debentures issued by a company, tax which would have been payable but for that exemption shall be taken into account by virtue of this paragraph if, and only if, the shares or debentures were first issued on or after the date of entry into force of this Convention, and then only --

(a) If the shares or debentures are an approved investment; or

(b) In any other case, to the extent of such proportion of the whole of that tax as corresponds to the extent to which the proceeds of the issue are to be used for the purposes of an approved enterprise owned by the company or an approved investment made by the company.

In this proviso, the terms "approved enterprise" and "approved investment" mean respectively an approved enterprise within the meaning of Section 47 of the Encouragement of Capital Investments Law 5719-1959, and an approved investment within the meaning of Section 46 of that Law.

(a) subject to sub-paragraph (b) of this paragraph, United Kingdom tax payable under the laws of the United Kingdom and in accordance with this Convention, whether directly or by deduction, on profits, income or chargeable gains from sources within the United Kingdom shall be allowed as a credit against any Israel tax computed by reference to the same profits, income or chargeable gains by reference to which the United Kingdom tax is computed;

(b) in the case of a dividend paid by a company which is a resident of the United Kingdom to a company which is a resident of Israel and which controls directly or indirectly at least 10 per cent of the voting power in the company paying the dividend, the credit shall take into account (in addition to any United Kingdom tax creditable under the provisions of sub-paragraph (a) of this paragraph) United Kingdom tax payable by the last-mentioned company in respect of the profits out of which such dividend is paid.

(4) For the purposes of this Article, profits or remuneration for personal (including professional) services performed in one of the territories shall be deemed to be income from sources within that territory, and the services of an individual whose services are wholly or mainly performed in ships or aircraft operated by a resident of one of the territories shall be deemed to be performed in that territory.

Article XIX

The taxation authorities of the Contracting Parties shall exchange such information (being information which is at their disposal under their respective taxation laws in the normal course of administration) as is necessary for carrying out the provisions of the present Convention or for the prevention of fraud or for the administration of statutory provisions against legal avoidance in relation to the taxes which are the subject of the present Convention. Any information so exchanged shall be treated as secret and shall not be disclosed to any persons other than those concerned with the assessment and collection of the taxes which are the subject of the present Convention. (b) In relation to Israel, all Israel subjects and all legal persons, partnerships and associations deriving their status as such from the law in force in Israel.

(3) The taxation on a permanent establishment which an enterprise of one of the territories has in the other territory shall not be less favourably levied in that other territory than the taxation levied on enterprises of that other territory carrying on the same activities.

(3A) Nothing contained in this Article shall be construed as obliging either contracting Party to grant to individuals not resident in its territory any of the personal allowances, reliefs and reductions for tax purposes which are granted to individuals so resident, nor as conferring any exemption from tax in one of the territories in respect of dividends paid to a company which is a resident of the other territory.

(4) Enterprises of one of the territories, the capital of which is wholly or partly owned or controlled, directly or indirectly, by one or more residents of the other territory, shall not be subjected in the first-mentioned territory to any taxation or any requirement connected therewith which is other or more burdensome than the taxation and connected requirements to which other similar enterprises of that first-mentioned territory are or may be subjected.

(5) In this Article the term "taxation" means taxes of every kind and description.

Article XXII

(1) This Convention may be extended, either in its entirety or with modifications, to any territory for whose international relations the United Kingdom is responsible, and which imposes taxes substantially similar in character to those which are the subject of this Convention, and any such extension shall take effect from such date and subject to such modifications and conditions (including conditions as to termination) as may be specified and agreed between the Contracting Parties in Notes to be exchanged for this purpose.
